Red Cross Drive Nets \$1266; Ends Saturday, April 12

Antioch One of Few Communities in County to go "Over the Top"

Chairman Ed C. Jacobs announced this morning that the annual Red Cross drive for Antioch township was well over the \$1000 quota with a total of more than twelve hundred dollars received to date. It is expected that when complete returns are in that the total will be well over \$1300.

Jacobs said that Antioch was one of the few townships which had been able to meet the quota by the end of the drive which was originally scheduled to end April 1, but was extended, on account of the poor response, until March 12.

He added that the fine response to the call for workers to assist in the drive was mainly responsible for its success, and said that the appearance of the Meister Brau championship bowling team at the Antioch Recreation, through the courtesy of Carl Gibson, manager, accounted for more than \$85.

Workers in the drive included Mrs. Herman Rosing, Miss Marguerite Grice, Mrs. A. P. Bratrude, Mrs. Hans von Holwede, Mrs. Barbara Holbek, Mrs. Rudy Eckert, Mrs. D. N. Deering, Mrs. Einar Petersen, Mrs. Wilfred Biron, Mrs. John L. Horan, Mrs. Maurice Radtke, Mrs. John Harrison, Mrs. H. J. Krueger, Mrs. Charles Wertz, Mrs. Richard B. Seyfarth, Mrs. C. N. Ackerman, Mrs. Robert LaParra, Mrs. Haeclat, Henry Rentner, William Brook, George Wagner, James Caple, Henry Pape, Charles Paddock and Pickard, Inc. Contributions will be accepted at either of the Antioch banks until Saturday evening, and any persons who have failed to make a donation may still do so.

Firemen Arrange Dance For Saturday Evening; Public Urged to Attend

Final arrangements were made Tuesday evening by the Antioch fire department for the public dance at the American Legion hall Saturday evening.

The dance will be free and refreshments will be served. The Joe Kutzler orchestra of Waukegan will provide the music.

The department was called early Tuesday evening so that there might be practice and an inspection by Drill-master James McMillen.

The committee conferring with the village board reported that plans for the new building are awaiting an estimate on the cost of the proposed structure.

Rep. Bolger's Bill Will Increase School Aid by 50 Per cent This Year

Antioch schools will share in state aid to Lake County amounting to \$531,671.26 next year if the bill proposed by Rep. Thomas A. Bolger, member of the state school finance committee, is passed by the legislature.

This would mean a boost of 50 per cent beginning July 1. To meet the state's increased aid, Bolger and other members have introduced an emergency appropriation of \$9,663,000, which is said to be needed to increase teachers salaries.

The committee which Rep. Bolger represents met at the Conservation school near Lake Villa last summer and started its investigation leading up to the decision to ask for increases.

Effective This Year

Under the commission's proposal, the increased state aid would be made effective for the coming school year by paying 150 per cent of the 1946 claims which schools now have pending with the state auditor of public accounts. The increase would cover the equalization payments and flat grants provided by state law.

School districts normally run a year behind in their collection of state aid. For example, payment of claims for the 1946 school year will begin July 1, 1947. It was for this reason the commission proposed to overpay the pending claims as a means of giving increased aid to schools immediately while the legislature is deciding on regular biennial appropriations that will not be paid out until 1948.

Telephone Service, Except Emergency, Out Since Monday

A strike of telephone operators which has held Antioch as well as the rest of the country in its grip since Monday morning appeared to be near settlement today. Just what the agreement will be is not known, but it is probable that the cost will be passed on to the public.

The operators left their posts when their demand for increases ranging from \$10 to \$15 was not met by the Bell Telephone Co. The company maintained that the dealings should be state-wide, not nation-wide, and that since the increase must be passed to the consumer, (an amount estimated at \$2 a month) the Illinois Commerce commission must be taken into consideration.

Antioch awoke Monday and found itself without telephone service except as emergency calls demanded. These calls involved sickness, fire, police and death.

Operators formed a picket line in front of the local office, some of the girls carrying banners with comments regarding service and demands.

To take care of emergency calls, however, Mrs. Ruth Tidmarsh, chief operator, Mrs. Francis Koppen, assistant chief operator, and Messrs. Stadler, Neil and Nelson, the latter three from the Chicago office, took turns at the boards.

Grayslake, Round Lake, Lake Villa and Fox Lake all have dial systems, but they could only make local calls. Fox Lake and Lake Villa, having to go through the local office, could not get calls beyond the two villages, because of the necessity of local board service.

Every effort was made to take care of emergency service, John Litter, manager, announced.

Antioch and vicinity for the second time since the close of the war has known what it means to be without regular telephone service. Business and social life were hard hit.

Emergency service was provided, however, and a good job was done in this respect. Fortunately, the need for emergency service was not great. There were no fires, no local deaths, and no great amount of sickness. The Rescue squad had not been called up to last evening.

Explaining the wage situation the telephone company noted:

Before the strike the average basic rate to pay for all union-eligible girls in the Traffic Department of our Antioch exchange is \$28.80 per week for a 5-day week. This figure, however, does not include extra pay for Sunday, holiday, evening and night work, which brings the average wage actually paid operators in this exchange to about \$32.77 for a 5-day week.

In addition, "position differentials" are paid union-eligible girls holding clerical or supervisory positions. Not including Sunday or similar pay, the basic rate for operators in the Antioch exchange begins at \$25.00 per normal 5-day week and progresses to \$34.00 depending on length of service. The basic rate for a senior clerk or supervisor in this exchange, for example, is \$3.00 per week higher than that of an operator with similar length of service.

Rates of pay for the chief operator and other management employees, who are ineligible for union membership, are not included in the averages. The money received by each girl in the Traffic Department, of course, varies above and below the average depending on her length of service, the hours she works, and her particular job.

Whitaker Speaker for Antioch Commencement To Be Held on May 29

Lieut. Whitaker, member of Eddie Rickenbacker's crew that was rescued from a life craft in the Pacific during the last war, will be the commencement speaker for the Antioch Township High school on May 29.

Lieut. Whitaker, since his miraculous escape from death, has written a book entitled, "We Thought We Heard the Angels Sing." His talk will be based upon his experiences.

The school board meeting last week to canvass the vote and again this week in regular session, arranged for the commencement speaker and then after a discussion on the matter of building a garage and providing bus service for students, tabled the matter until a later meeting.

Awards Made to Five at Future Farmer Banquet At Antioch High School

One hundred and forty persons attended the father and son banquet of the Future Farmers of America last Thursday evening at the Antioch Township High school, at which time honor awards were presented.

J. Gordon Bonner of near Millburn, received the annual certificate of honorary recognition for his outstanding farming. He has a large farm and good buildings, and not only has a high production herd of purebred Holsteins but has done a good job of fattening hogs and steers, according to C. L. Kutil, club adviser. A son, Howard, is in partnership with him.

The awards to high school students went to Kennedy Heuer for outstanding work in poultry; Logan Lindgren for his dairy cattle; Warren Wells, Shropshire sheep and Russell Myers, Aberdeen Angus beef cattle. Their awards were F-F leather belts.

W. D. Knox, associate editor of Hoard's Dairyman, Ft. Atkinson, Wis., was the principal speaker. He told those present that farmers cannot legislate themselves out of their economic difficulties, but can only accomplish their aims through efficiency and production.

C. L. Kutil, who presented the awards, gave second degree Future Farmer pins to the following:

Robert Keulman, Robert Boek, John McKinney, Russell Myers, Floyd McKinney, Wesley Boek, Noel Elfering, George Gossell, Carlyle Harris, George Miller, Floyd Skeans, James Waters, Roy Wiberg and John Conrad.

No Stepchild

A short while ago, the House and Senate of the State of Indiana adopted one of the most remarkable resolutions ever proposed before a legislative body. It was a dramatic reaffirmation of those principles of local independence and local responsibility that have been so largely forgotten under a philosophy which would have the Federal government do everything—and pay for everything.

Here, in part, is what the resolution said: "Indiana needs no guardian and intends to have none. We Hoosiers—like the people of our sister states—were fooled for quite a spell with the magician's trick that a dollar taxed out of our pockets and sent to Washington will be bigger when it comes back to us."

"We have taken a good look at said dollar."

"We find that it lost weight in its journey to Washington and back. The political brokerage of the bureaucrats has been deducted. We have decided that there is no such thing as Federal aid. We know that there is no wealth to tax that is not already within the boundaries of the 48 states."

"So we proposed henceforward to tax ourselves and take care of ourselves. We are fed up with subsidies, doles and paternalism. We are no ones' stepchild. We have grown up. We serve notice that we will resist Washington, D. C. adopting us."

Here is the unanswerable case against super-government. Here is the final argument against having the Federal bureaucracy rake our parks, construct our swimming pools, pay our old-age pensions, lend us money, and do all the things it has been doing. Every nickel that is spent must come out of our pockets—and added to it must be the immense costs of political administration and spoils-taking. The Indiana legislature has simply restated, in plain words, the doctrine on which this nation was built. And it is the only doctrine that can keep this nation strong and free in the years to come.

Power Dams vs. Flood Control

The agricultural committee of the St. Louis Chamber of Commerce has issued a report on Water Policy which deserves national consideration. Its purpose is to clear up some of the misconceptions that have

inevitably arisen as Federal flood control and soil conservation activities have been lumped in with Federal hydro-electrical development—and have become lost beneath grandiose, incredibly costly schemes for the generation of power.

The report points out that soil conservation and good land-use methods will do a great deal to alleviate the problems of flooding. This, it believes, should precede reservoir construction in many areas. Yet the annual appropriation of the Soil Conservation Service is only \$38,000,000 for the entire nation—a literal drop in the bucket compared to appropriations for power dams.

It is an obvious fact that in most cases, power dams, far from helping the flood control problem, actually make it worse. You don't have to be an engineer to understand that if a dam is going to produce power it must be filled with water in order to obtain the flow through the generating system—and if a dam is filled with water it is unable to handle floods. All the socialistic pleading for billions for more Federal dams can't change that fact.

A sound flood control project must be rigidly divorced from power projects. It is to be hoped that Congress has learned this at long last.

Meeting All Corners

Some time ago, in a discussion of the world oil outlook, J. Howard Pew, president of the Sun Oil Company said this: "American oil asks no special privileges, at home or abroad.—We ask only the opportunity to do business in the traditional American manner of competing with all corners, with none barred, on a basis of equal rights, without coercion or monopolistic restraints of trade."

The remarkable achievements of the oil industry in the past have resulted from that manner of doing business. For a great many years, for example, it has been periodically stated that the nation is in danger of running out of oil. Yet, despite the enormous demands on oil resources made by the war, our proved reserves of crude are the largest in American history, and they are constantly being increased by new discoveries. Of equal importance, new technological developments promise to multiply these resources and their utilization by more than two-fold in the near future. Free enterprise—not government cartels or international monopolies—have been responsible for that.

The world's need for oil is greater than it ever was before. The increased use of diesel power is alone causing something of a revolution. New and unexpected uses for oil in one or another of its thousand forms are constantly appearing. And the American oil industry, with a proud record of service behind it, has no fear that it will in any way fail to meet the needs of those who depend on it.

Announces Details of \$20,000,000 Price Reductions

Details of the recently announced International Harvester policy of making price reductions to save users of our products approximately \$20,000,000 a year have now been worked out.

We have reduced prices on 163 models. These cover 12 basic models of farm tractors, 123 basic models of farm machines, 16 basic models of industrial tractors and engines, and 12 models of motor trucks, as well as certain motor truck attachments. The new lower prices are effective as of March 10, 1947.

These reductions were made not because of any decline in demand, but because we believe nothing is more important to this country than to lower the prices of the goods people buy.

While prices have not been changed on all products, we have made reductions wherever possible, in the amounts possible. Prices of many of our most popular products have been substantially lowered.

Altogether, more than half of the company's customers will be benefited by the reductions, which range from 1% to 23.8% and from \$2.50 to \$300 per item, based on list prices, F.O.B. Chicago.

Since the people have demanded that the government withdraw from price control in peacetime, the responsibility to keep prices in check is back where it should be—in the hands of business and industry. The business outlook makes it possible for us to move toward the goal of lower prices, and we have felt a duty to act as promptly as possible.

Our ability to maintain these lower prices will depend on the supply and price of materials we buy from others and on uninterrupted production at reasonable wage levels.

The prices listed here carry out our announced policy that "Any price is too high if it can be reduced."

MILLBURN

All who attended the Good Friday evening service appreciated the dramatic reading from "The Rock" by Mrs. Black, of Libertyville, and the organ music by Mrs. E. A. Martin. Nearly 200 people attended the Easter services at Millburn church Sunday morning, when Rev. Messersmith spoke on "We Make the Choice". HOME INSULATION HAVE IT NOW!

Should anyone be without the comfort of an insulated home? Having the ceilings insulated and filling the sidewalls with Johns-Manville "Blown In" Home Insulation is the modern way of living in comfort. ing, yet, how many of us are still living in a hollow wall shell structure for a house. In summer the rooms upstairs are stifling hot, in winter the house is drafty and several rooms are cold. With Johns-Manville "Blown In" Home Insulation in attic and sidewalls, your house can be cooler in summer and warmer in winter. Fuel saved will pay for the insulation. Your home will be more fire-proof. Get your home insulated this summer. Write or call Ernest C.

Design for Marriage
In some sections of the orient it is customary for a girl to weave a special rug for presentation to her prospective husband. It is said that some young men look over the field of dowry rugs in the village before picking out a prospective bride.

ONE-TWO-THREE-FOUR-FIVE-SUGGESTIONS

...to help you make better use of your NEW Telephone Directory

WE TRY to make your telephone directory accurate and complete. These five suggestions, if followed, will increase its usefulness.

1 Be sure to discard your OLD telephone directory if it was not collected when the new one was delivered. (Don't destroy it—turn it in for waste paper.)

2 If you have a memo list of numbers called frequently, verify these numbers now by looking in your NEW directory.

3 Always consult the directory when not sure of the number.

Calling from memory is a common cause of wrong numbers.

4 Look in your directory—don't ask "Information" for numbers listed there. This avoids making two calls instead of one.

5 Use the "Classified" section (yellow pages in most directories) to locate wanted products, services or professional help.

Who says you're only young once?

Take a look at this trim, new Buick—or better, take its wheel—and see just how wrong that old saw is!

One look at these sleek lines, the long, taste-of-tomorrow fenders—and just watch yourself start getting young ideas.

Find an open road, gun this beauty just a bit—and see how the spirit of springtime wells up in your soul and sets the red blood coursing.

Good road or bad, on these soft all-coil springs you take everything with youthful zip and zest, quite freed from jar or jolt.

City street or country road, with all this poised and husky roadweight beneath you, you travel your level course, steady and non-swerving even on curves.

Pull up somewhere—and see how people turn to note the Very

Important Person who's arriving.

Take it through the tangle of traffic and see how nimbly it maneuvers—check it at a boulevard stop and see how sure and positive its controls are.

In all truth, here's a car that's any man's darling, every man's pride. A car that not only meets your needs for transportation, but satisfies your every hankering for size and power, style and room, solid worth and top-dollar value.

Naturally, it's a much wanted car. America's most wanted automo-

bile, in fact. Definitely not the number to be picked up off the counter any time, anywhere.

That's why forethought pays and prompt decision gets results. You are simply playing safe when you get your order in now!

When April showers come your way, do you have to brave the rain to go marketing... or have you enough staples and canned goods on hand to tide you over till the sun shines again? If you haven't, there's no time like the present for acquiring a "rainy day" shelf... and no place like the A&P for stocking it with fine foods at thrifty prices!

A TOAST TO THIS TOAST

You'll toast cinnamon toast made this way: Mix ½ cup powdered sugar with 1 tsp. cinnamon, and combine with 4 tbsps. butter, creamed. Toast 4 slices of

MARVEL ENRICHED WHITE BREAD on 1 side, spread mixture on other side, and cook under broiler till it bubbles. I always use A&P's MARVEL ENRICHED WHITE BREAD because it toasts so evenly, and is guaranteed fresh by the date on the wrapper.

READ 'EM AND REAP!

In talking to the manager of my A&P the other day, I made a very interesting discovery. He told me that A&P's canned fruits and vegetables are graded according to standards set up by the Department of Agriculture. A&P BRAND is Grade A; SULTANA, Grade B; and IONA, Grade C. ... and we housewives can cut our food bills by buying the grade that's best for the way we intend

to use the product. For example: I was about to buy a can of A&P BRAND peaches for a pie when the manager pointed out that IONA peaches would be just as good for that purpose because they're equally nutritious, though not as fancy. Since then I've been reading the back panels of all labels very carefully... and profitably. I recommend that you "read 'em and reap", too! You'll be surprised how much helpful information they give.

QUICK TURNOVER

Here's a turnover that's quick to click with folks who enjoy A&P's rich ANN PAGE GRAPE JAM (and who doesn't?). Sift 1 cup flour and ½ tsp. salt; cut in ½ cup shortening; add ¾ cup grated cheese and 2 to 3 tbsps. cold water to make stiff dough. Chill 1 hr. Roll out; cut into 6 to 8 2-inch rounds; put ½ tsp.
